Report of

# Board of Education.

UNION DISTRICT NO. 2.

---

As the school year of '94 and '95 draws to a close we are called upon once more to give the citizens of our town an idea of the work accomplished and the prosperity of our school during the past year. At our school meeting held last March the Board of Education plead the lack of money to do for our schools what we wanted to do and what we knew ought to be done to give them any standing in the community or in the state. The citizens recognized the call, showed themselves attentive listeners and active workers in the cause. The amount asked for was willingly voted by the district. For this act, a benefit to the school, as well as a great help to the members of the Board of Education trying to build up the same, we acknowledge our gratitude. And now what has the outgrowth been? Have the results been satisfactory? has the money been judiciously expended? We answer yes, with one exception. Anyone connected with school work is impressed with the fact that engaging new teachers is much like holding tickets in a lottery. We may draw a prize or we may draw nothing. We have had both experiences in the past year.

At the opening of the year it was deemed necessary to change teachers in the intermediate and grammar grades. After a great deal of time given to correspondence and

study concerning the applicants, we decided to place the intermedite school under the care of Miss Florence Bowles of Plymouth. It took but a short time to learn that we had drawn a prize. As a teacher, as a disciplinarian, as one gifted with the ability to enthuse her pupils, she has no superior. We are more than pleased with her work. At the same time we engaged as a teacher in the grammar department a young lady from Vermont, sent to us with high recommendation, but did we get a prize? Not exactly. We kept her one term. The winter term we engaged as her successor, Miss Swain of New Hampton, an experienced teacher, and her results as teacher and disciplinarian have proved highly satisfactory. We could not, if we wished, criticise her work since she has been with us.

Now, then, what has the increase of school money done for us? It has enabled us to keep as Principal of our schools Mr. A. L. Pitcher, of whom we spoke so highly in our last year's report, thus enabling the school to advance without interruption, which is impossible with frequent change of teachers. We have been able to keep our primary teachers, Miss Morrill and Mrs. Butrick, who have done excellent work in their departments; and we have placed our schools on the best basis for growth that has been done for years. We sincerely hope we may be able to retain the teachers we now have, feeling assured that, could we do so, at the end of five years we would see a great revolution and our schools raised to a standard that has long been wished for and sought after. Shall we need to ask for more money at our next school meeting? We think not. Let the district grant us the same amount and your servants will endeavor to expend it wisely.

Respectfully submitted for the Board of Education,

CHANNING BISHOP, Supt.

## Report of School Board.

---

We think the past year has been a very prosperous one for the schools of the district, as the board has been especially fortunate in securing capable, efficient teachers, who have labored conscientiously for the good of the schools under their charge. The faithful efforts of the teachers were met with commendable work by the scholars, and the result has been what may be expected—good schools.

## Report of Board of Health.

---

Our report of the health and sanitary condition of the town for the past year must of necessity be very brief. Very little complaint has been made and very little work has been done by your Board. The sanitary condition of our town compares very favorably with the adjoining cities and towns and the absence of epidemics is a striking feature. Only two or three cases of a diphtheritic nature have come to our knowledge and they were of a mild type, only one case of typhoid fever has been reported and we know of no others.

Respectfully submitted,

C. A. SMITH,  
CHANNING BISHOP.

## The Bristol Cemetery.

---

The directors of the Bristol Cemetery Association are permitted (without expense to the town) to use this space for the purpose of presenting to the people of Bristol a few pertinent facts concerning the Bristol cemetery.

The Bristol Cemetery Association is a corporation organized under the laws of the state. It owns at present over thirty acres of land, one-third of which is covered with a pine growth. It is divided into two sections by a ravine, in which flows a small brook. The surface is undulating, its situation and surroundings are beautiful. Of this land about one-third is now used for burial purposes. Four hundred and ninety-two lots have been sold and during the forty years or a little more that the cemetery has been open to the public there have been 1,200 or more interments. That portion now unoccupied will supply the demand for lots for many years to come.

Each owner of a lot is a shareholder in the association and entitled to a vote in all of its meetings. Of the receipts of the association from the sale of lots at least one-half is placed at interest in the Bristol Savings Bank, called the Reserve Fund, and by the by-laws of the association no part of this can be used till the principal and interest amount to \$3,000; then the interest only can be used.

This fund now amounts to \$1,000. The remainder is used in the present care and improvement of the grounds. The directors serve without pay and the total salaries paid amount to only \$35 per year, \$15 to the superintendent of the grounds and \$20 to the secretary and treasurer.

The directors have also organized what is designated as a Trust Fund, and it is to call attention to this fund that this article is chiefly written. This fund is made up of donations and legacies of money, the interest of which is used so far as necessary to provide for the perpetual care of lots specified by the donors, the balance to be used in the care of the grounds. This money is also invested in the Bristol Savings Bank in the same way that all trust funds are by law required to be invested. It is kept entirely separate from all other funds and the directors give an obligation that the interest shall be used yearly as specified, or the money forfeited to the donor or his heirs. This fund now amounts to \$680, received from twelve persons or estates, and \$150 more will soon be available from the Samuel Blakely estate.

It will thus be seen that no surer way can be devised to provide for the perpetual care of lots in the cemetery than this, and the directors would urge upon owners of lots the importance of making provisions of this kind while they are living by placing in the hands of the directors the necessary funds, or at least by providing for such payment in their wills. Consider this and act now.

In addition to the funds deposited in the savings bank named above, the treasurer has in his hands with which to pay current expenses \$164.49. All indebtedness is paid as soon as they accrue.

The Bristol cemetery is, all things considered one of the most attractive in the state and with the receipt of money

from the sale of lots and the interest on the funds spoken of above its future care and preservation are assured.

This however is not all we hope for. Several thousand dollars can be wisely expended now in beautifying the grounds and making needed improvements. Suitable fountain fixtures are also sadly needed at the basin now supplied with running water and the income from its present or prospective funds will not be sufficient to make these grounds all they can and should be, and these needed funds can only be secured through the generosity of those who have means. To such we would suggest that here is an opportunity to perpetuate their name and confer a lasting benefit to the public by beautifying the resting place of our dead.
